PROFESSIONAL SUMMARY

Computer Science & Technology diploma student (graduating 2027) specializing in network administration and cybersecurity. National Winner of the Bangladesh Cyber Security Olympiad 2026, with hands-on proficiency in network defense, cryptography, binary exploitation, and digital forensics. Designed a 3-layer Zero-Trust campus network simulation across 9 academic sectors and built a real-time Android app for campus communication. Seeking an entry-level network administration, IT infrastructure, or cybersecurity, or SOC role.

ACHIEVEMENTS

National Winner, Bangladesh Cyber Security Olympiad 2026 *National Cyber Security Agency (NCSA) · Aug 2026*

- Secured 1st place nationally (after placing 2nd at the Rajshahi University regional round) in National Cyber Security Agency's CTF championship testing network defense, binary exploitation, cryptography, and digital forensics.

TECHNICAL SKILLS

Networking:	Cisco Packet Tracer, Routing & Switching (OSPF, STP, HSRP), VLANs, Extended ACLs, AAA, NAT, Port Security
Security & Forensics:	Network Defense, Cryptography (AES-256), Binary Exploitation, Digital Forensics
Tools & Platforms:	Kali Linux, Ubuntu Server, Windows Server, VMware, Wireshark, Nmap, Burp Suite, Git / GitHub
Programming & Dev:	Python, Kotlin (Jetpack Compose), JavaScript, Node.js, React, Firebase / Cloud Firestore, REST API, Figma

PROJECTS

Zero-Trust Campus Network Architecture *Mar 2026 – Jul 2026*

- Designed and simulated a 3-layer hierarchical campus network across 9 academic sectors in Cisco Packet Tracer, enforcing Zero-Trust micro-segmentation to prevent unauthorized lateral movement.
- Configured VLANs (VLAN 10–99), OSPF routing, HSRP redundancy, Port Security, Extended ACLs, Unified AAA authentication, and dual-tier Syslog/NTP logging with a secure SSH administrative mesh.

Tools: Cisco Packet Tracer, OSPF, Switching, VLANs, Extended ACLs, AAA, Port Security, Syslog/NTP

RPI-Campus Mobile Application *Jun 2025 – Jan 2026*

- Developed an Android application using Kotlin and Jetpack Compose to centralize campus resources, administrative and hostel notices, and student-faculty communication.
- Engineered real-time Cloud Firestore and Firebase Authentication modules supporting a peer-to-peer book exchange, a tutor discovery directory, and a live lost-and-found notice board.

Tools: Kotlin, Jetpack Compose, Android Studio, Firebase Auth, Cloud Firestore

EDUCATION

Diploma in Computer Science & Technology *2023 – 2027 (Expected)*
Rajshahi Government Polytechnic Institute · CGPA: Running

Secondary School Certificate *2021 – 2022*
Mohim Chandra Jubli High School · GPA: 5.00 / 5.00

CERTIFICATIONS & TRAINING

Cisco Network Security Training — NACTAR, Bogura *Dec 2025 – Feb 2026 (70 hours)*

- Completed advanced Cisco Networking Academy training in network defense strategies, protocol hardening, threat mitigation, and infrastructure protection.

LEADERSHIP

Group Leader, ICT, Media & Communication *Jul 2026 – Present*
Red Crescent Society, Rajshahi Government Polytechnic Institute

- Led digital communications, media operations, and technical publicity for campus humanitarian initiatives and safety programs.
